

**Thanks for stopping by! Today, you can:**

- 1. Learn about the Tillamook: US 101/OR 6 Alternatives Project.
- 2. Provide us with input on ODOT’s proposal to only study the design that extends Pacific Avenue north of 1<sup>st</sup> Street to the Hoquarten Slough in the project’s environmental process (formerly Alternative 2).

Your feedback is a vital part of the planning process! Before you leave, please fill out this comment form and put it in the comment box.

**New bridge design**

Both project designs now include a new four-lane US 101 bridge over the Hoquarten Slough that would maintain access to businesses near the Slough and be built above the 100 year flood elevation. Do you have any remaining concerns related to the bridge?

**Design to study further**

ODOT has heard that many community members prefer the design that extends Pacific Avenue north of 1<sup>st</sup> Street to the new Hoquarten Slough bridge. Do you support studying only this design as we move forward?

- Yes – only study the design that extends Pacific Avenue north of 1<sup>st</sup> Street (formerly Alternative 2)
- No – continue study both the designs (formerly Alternatives 1 and 2)

**Other comments**

Do you have any other comments? Is there anything else you want to tell us?
