

Thanks for stopping by! Today, you can:

1. Learn about the Tillamook: US 101/OR 6 Alternatives Study.
2. Tell us what do you like or what concerns you have about the draft bridge concepts and the recommended downtown concepts.

Your feedback is a vital part of the planning process! Before you leave, please fill out this comment form and put it in the comment box.

Downtown Concepts

The Stakeholder Advisory Committee (SAC) recommended that two downtown alternatives be studied further. Alternative 1 would improve downtown streets, but maintain current one-way traffic on 1st and 3rd streets and Alternative 2 would modify 1st and 3rd streets to accommodate some two-way traffic. **What do you like and what concerns do you have about these recommended alternatives?**

Bridge Concepts

A new four-lane bridge over the Hoquarten Slough would be part of the project. There are two options under consideration for the new bridge over Hoquarten Slough.

- **New Bridge Alternative 1** - about 12 feet higher than existing bridge, underpass for Front Street;
- **New Bridge Alternative 2** - about five feet higher than existing bridge, maintains Front Street’s connection with U.S. 101, raises Front Street five feet beginning at Ivy Street.

What do you think about each option?

	Definitely consider	Maybe consider	Neutral	Maybe not consider	Definitely not consider
New Bridge Alternative 1	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Likes:					
Concerns:					
New Bridge Alternative 2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
